WAYFINDING

- Keep it simple, Like gateway signage.
  - → Natural, look/Feel.
  - → SaFe, indicator
    - → "share the trail" → existing signs/messages
  - 2 directions. "mark the path. Overboard"
    - "point to something. instruct. URL exp."
- small simple arrows. ON the ground. effetive. "Better for user"
- signs good for visiters. Not instructive → for motorists "easier to see"
- different uses. Context sensitive — SAFE
  - → How it is being used. Awareness. Nice to have something laid out to know where to go and how to use it. CONNECTIVITY
